

m\_time::d2j

```
graph LR; A[m_time::d2j] --> B[m_time::date_to_julian]
```

A diagram showing a mapping from the function `m_time::d2j` to the function `m_time::date_to_julian`. The first box, containing `m_time::d2j`, has a light gray background. A blue arrow points from this box to a second box on the right, which contains `m_time::date_to_julian` and has a white background. Both boxes have a black border.

m\_time::date\_to\_julian
